

VOCAL TRASH

Let Peace Begin

Music connects hearts and minds like no other. Diverse ethnicities, religions, generations and all genders find inspiration, hope and refuge through song. Vocal Trash was inspired to create their "Let Peace Begin" Album as the result of a collective cry-out for change. While touring Africa, Asia, Europe, and many other parts of our Mother Earth, the group has seen, first hand, the power of presenting meaningful musical content. The entire cast of Vocal Trash has evolved into world activists, utilizing their gifts of song and dance, to start a revolution of peace and justice.

"Both Romania and Morocco's Embassy's raved about how effective the workshops, followed up by the performances, were. Using Vocal Trash for our "Arts Envoy" outreach program was our best decision yet. The buzz has many more of our Foreign Embassy's requesting Vocal Trash for this upcoming year".

Robert Keith, Office of Cultural Programs, U.S. Department of State
